PhD in Engineering, GradIOSH, Chairperson of ESOSH (Ukraine)*

Unpredictable challenges

mass character

infrastructure collapse

chemical attack

nuclear attack

Unpredictable challenges

fuel depletion

huge demolition

refinery destruction

People are still at work

energy sector

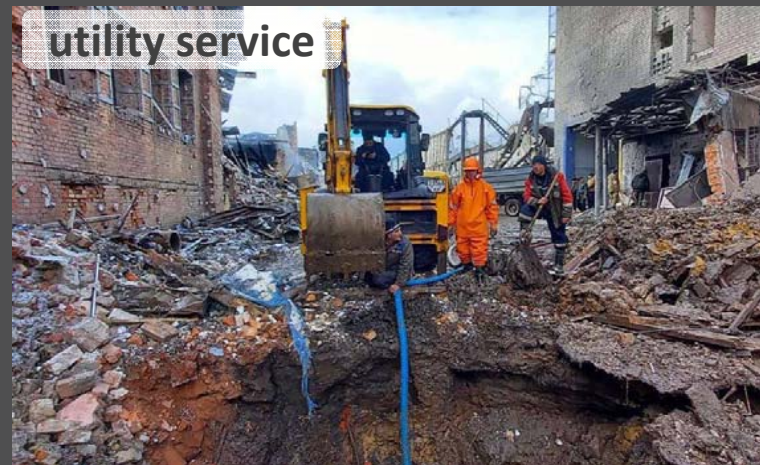

emergency

physicians

utility service

Current challenges

mines in fields

mines in forests

Current challenges

fire, shooting

demolition hazards

Future challenges

mental health

risk acceptance

aggression

Future challenges

Risk reduction

- ✓ Emergency Preparedness
- ✓ Evacuation of personnel
- ✓ Constant commutation
- ✓ Flexible management
- ✓ New safety and security requirements
- ✓ **Safety culture is a confidence in the future**

Smart Energy Group is one of five leading independent gas producers in Ukraine, <https://smart-energy.com.ua>

Safe rebuilding ahead
